TECHNICAL SKILLS

Hello! I'm Dilipkumar Teli currently a B.Tech student at Shah & Anchor College. My journey in the world of technology has equipped me with a strong command of programming languages like C, C++, Java. I have delved into the realm of web development, where I've acquired knowledge and certifications in a range of technologies, including HTML, CSS, JavaScript, jQuery. What excites me most is the prospect of being a full-stack developer, and I've honed my skills to confidently navigate the MERN stack. I'm passionate about creating innovative and efficient solutions, and I look forward to applying my skills and enthusiasm to real-world projects as I progress in my academic and professional journey.

CERTIFICATION

- CSS(Basic) Certifications issued by Hackerrank
 - JAVASCRIPT(Basic) Certifications issued by Hackerrank
 - JAVA(Basic) Certifications issued by Hackerrank :
 - Completion of C Training by the Spoken Tutorial Project, IIT Bombay
 - Completion of Python 3.4.3 Training IIT Bombay :
 - NPTEL Course : Programming In Java
 - NPTEL Course : Data structure in python
 - Complete web development by udemy:
 - Participated in hackthon:
-

EDUCATION

Shah & Anchor Kutchhi Engineering College

Nov 2022- Present

Bachelor of Technology [B.Tech]
(Computer Science and Engineering)
Till date sgpa: 9.51

Currently In Second Year

S.I.E.S. College of Arts, Science and Commerce

Dec 2020 - Mar 2022

HSC in Science Stream (PCM), Percentage: 81.00 %

PROJECT

Data Structures Learning Hub
Web Development

The platform provides real-time simulations of stacks and queues and various sorting and searching algorithm. Users can manipulate and visualize data structures, gaining insights into organizational principles and algorithmic efficiencies.

Utilized front-end technologies such as HTML, CSS, and JavaScript to create an engaging user experience. Implemented back-end functionality using Node.js and Express for dynamic content delivery.
